DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 19-43 are finally rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The independent claims 19, 31 and 39 all appear to be drawn to "a screwdriver including a handle and a detachable drill attachment", however it is unclear as to what is actually being claimed as there is no disclosure for a drill attachment that is connectable to a drill chuck and a handle at the same time. As this is what is apparently being claimed, the claims are ambiguous.

3. Normally a claim which fails to comply with the first and/or second paragraph of § 112 will not be analyzed as to whether it is patentable over the prior art since to do so would of necessity require speculation with regard to the metes and bounds of the claimed subject matter, **In re Steele**, 308 F.2d 859, 862-63, 134 USPQ 292, (CCPA 1962) and **In re Wilson**, 424 F.2d 1382, 1385, 496 USPQ 494, 496 (CCPA 1970).

Response to Arguments

4. Applicant's arguments with respect to claims 19-43 have been considered but are moot in view of the new ground(s) of rejection.

The newly presented claims appear to be similar in nature to original claims 16-18 which were rejected under section 112, second paragraph, as indefinite as to

Art Unit: 3723

what the intended invention was that was being claimed. It now appears that the invention is an attachment that is connectable to both a drill and handle simultaneously. As the original application lacks any mention of such a structure, it is impossible to ascertain what is now intended to be claimed.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
